Our Capabilities

(R)Evolution | Instructor Led
Training | Learning Solutions

As a learning solutions partner for our clients, TekSource provides corporate technology training and training related services that are both innovative and proven. Whether it is our (R)Evolution mentored training offering or our other core training and consulting services, TekSource's commitment to our clients is constant – TekSource will provide an outstanding client experience, a quality offering, leadership, and expertise.

TekSource Corporate Learning

36 Lombard Street, Suite 600, Toronto,
Ontario M5C 2X3
647.827.0488

(R)Evolution, TekSource's core offering, is transforming the way IT professionals and information workers receive training. Our courses are led by Certified Instructors and supported by online course mentors. Course content is delivered through expert video modules, interactive features, virtual lab exercises and progress quizzes. Some of the benefits of this approach include:

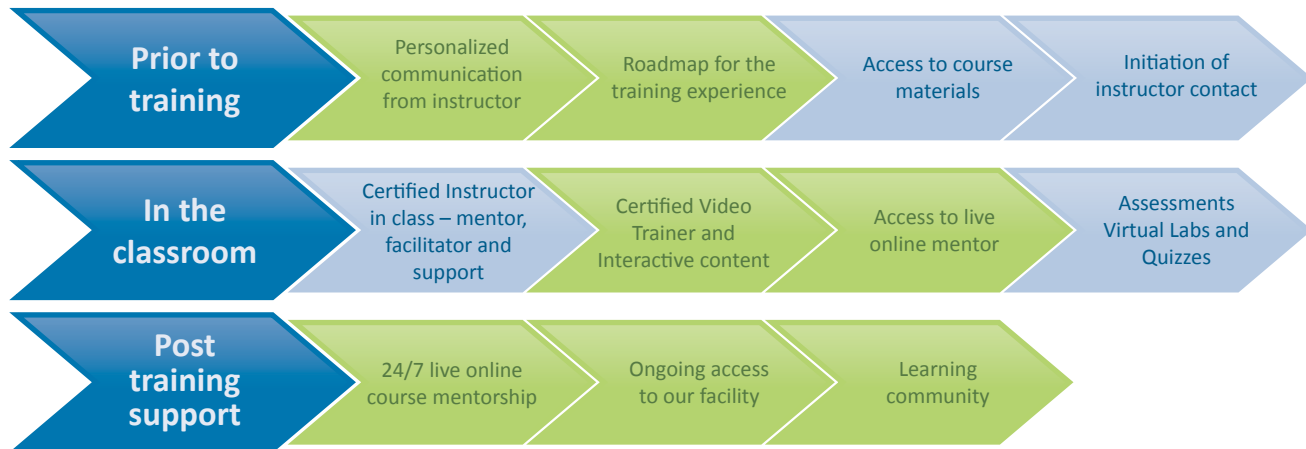

- ◆ **Flexible scheduling** – individual courses are supported more often, and students can accelerate courses or divide a multi-day course into segments.
- ◆ **Focused Content** – course content can be easily tailored to individual requirements, and more than one course can be combined to meet specific objectives.
- ◆ **Extended Support** – our clients continue to have access to our instructors and facility as well as online mentors for 6 months after the start of their classroom session. We encourage clients to reinforce their learning over time, at a pace that is comfortable for them.

Instructor Led Training

TekSource can also provide standard instructor led training either delivered at our site or at a client site. This can be formal courses, desk side coaching, or support, and normally course content is tailored to meet specific project or business objectives.

Learning Solutions Consulting

We are experts in technology related corporate learning initiatives. Our experience in this area extends to: Vendor management, courseware and content development, learning strategy and provisioning facilities.

The green boxes indicate some of the value-add components that make TekSource on demand mentored training unique

Pre-class Facilitation

clear objectives | a tailored Learning experience | a prepared participant

We start the learning process well before you arrive at our door with lots of communication and information. Our instructors, coordinators and facilitators will ensure that when course participants arrive, they will have all the tools they need to be successful and students will have already started to learn

In our Facility with Certified instructors

certified instructors | comprehensive course delivery | personalized and consultative

With (R)Evolution, each course is supported by a certified instructor who facilitates, coaches and mentors the students through the learning process - their only job is to ensure our students' success. Students attend class in one day increments (which can be non-consecutive days for multi-day courses).

Expert Video Modules

Consistent | industry experts giving their best delivery | paced to the student

(R)Evolution guarantees consistent, high quality instruction, and uniform delivery of the course material mapped to official vendor course curriculum with no missed topics.

- Content is delivered by World Class Experts and Certified Trainers and it has been edited and produced so that students are presented the best possible delivery of the course material.

Interactive Content

live lab environments | mapped to objectives | ongoing concept reinforcement

Throughout the Learning experience, instruction is reinforced with practical exercises, lab exercises completed in live lab environments and progress checks that give immediate feedback to the student regarding their progress.

- Provides instant feedback, real time results and acts as a measure for the instructor to provide further mentorship

Online Mentoring and Support

6 months, 24/7 access | Course material expert mentor | Concept reinforcement

As both a 3rd training resource in the classroom and as a valuable support service that is available 24/7, students have yet another mechanism to support their learning.

- Reinforces learning and acts as a support during the classroom session
- Access to our facility and ability to re-take some or all of the training is absolute assurance that required learning is received.
